

As a resident of Ukiah, Ca, it is comforting to leave my home or car while listening to K-LOVE and go into a local business and hear the the same station being played. More businesses are playing K-LOVE and that is both welcome and reassuring to me. Since we live in a valley, reception is difficult at best and a LPFM would make it close to impossible to receive K-LOVE in out community. This would be a disservise to our community as a whole and to me personally.

I am a grandparent of a teenager, an eight, four and three year olds who live with us and their perferred listening station is K-LOVE BECAUSE WE CAN LET THEM LISTEN WITHOUT WORRY. my daughter monitors all tv programs, radio stations, movie choises and activities that her children are exposed to. K-LOVE provides that worry free programming that she wants for her children. Please do not adapt the LPFM broadcast service!!!!!!! Thank you and God bless.
